

Small Cell Size Comb Use by Percent of Use in Operation

Management Survey 2013

Average winter colony mortality suffered by beekeepers who reported they did not use and those who did use brood comb with small cell size in at least some percentage of the colonies in their operation, between April and March, by percentage of use within operations.

Winter

Report ID: 119-2013

Participant Ratio

Interpretation

Data not present in the 2012 survey. No comparisons can be made.

Survey Question

Over the last year, did you employ any of the IPM practices/equipment listed below?

- Drone comb removal
- Small cell size comb
- Screened bottom board

		Total Number of Respondents Providing Valid Responses	Total Number of Colonies Managed	Average Number of Colonies Managed		Average Colony Loss
				Mean	Standard Error	Mean(%) [Lower, Upper] CI
Small Cell Size	Data not present in 2012 survey	4,125	610,464	148.0	24.1	43.8 [42.7, 44.9]
