

Average winter colony mortality reported by beekeepers whose colonies were or were not used for pollination between April and March.

Winter

Report ID: 98-2014

Participant Ratio

Interpretation

Beekeepers who reported renting their colonies for pollination did not report losing more or less colonies than those who did not rent their colonies for pollination. In other words, there was not a significant difference.

Survey Question

Did you derive income from your colonies by renting them out for pollination between April, 2013 and March, 2014?

		Total Number of Respondents Providing Valid Responses	Total Number of Colonies Managed	Average Number of Colonies Managed		Average Colony Loss Mean(%) [Lower, Upper] CI
				Mean	Standard Error	
Renting for Pollination	Yes	771	455,850	591.2	113.6	42.2 [39.6, 44.7]
	No	4,530	59,480	13.1	2.6	43.2 [42.1, 44.3]
