

# Small Cell Size Comb Use

Management Survey 2014

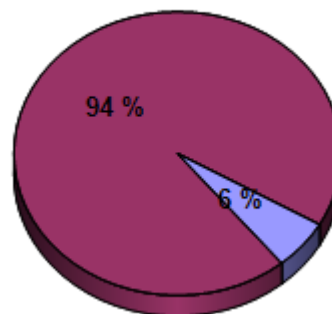

Average winter colony mortality reported by beekeepers who used or did not use brood comb with small cell size in at least some of the colonies in their operation, between April and March.

## Winter

Report ID: 113-2014

## Participant Ratio

## Interpretation

Beekeepers who reported using small cell size comb did not report losing more or less colonies than those who did not report using small cell size comb. In other words, there was not a significant difference.

## Survey Question

Over the last year, did you employ any of the IPM practices/equipment listed below?

-Small cell size comb

		Total Number of Respondents Providing Valid Responses	Total Number of Colonies Managed	Average Number of Colonies Managed		Average Colony Loss
				Mean	Standard Error	Mean(%) [Lower, Upper] CI
	Technique Not Used	5,298	514,641	97.1	16.9	43.1 [42.1, 44.1]
	Technique Used	321	9,815	30.6	14.7	46.7 [42.6, 50.8]
