

Average winter colony mortality reported by beekeepers whose colonies were or were not used for pollination between April and March.

## Winter

Report ID: 98-2015

## Participant Ratio

## Interpretation

Beekeepers who reported renting out their colonies for pollination did not lose more or less colonies than beekeepers who did not rent their colonies for pollination.

## Survey Question

Did you derive income from your colonies by renting them out for pollination between April, 2014 and March, 2015?
