

# Protein Feed Use

A comparison of winter mortality among those who indicated they did not feed and did feed to a majority of their colonies, at least once between April and March, with a protein feed. Protein feed included: Self-made protein feed containing pollen, Self-made protein feed without real pollen, Bee Pro, MegaBee, Global Patties, and other Commercial protein feeds.

## Winter

Report ID: 155-2015

## Participant Ratio

## Interpretation

Beekeepers who fed the majority of their colonies with protein feed did not suffer fewer or greater losses than beekeepers who did not feed their colonies protein.

## Survey Question

Which, if any of the following, did you apply to a majority of your colonies between April 1, 2014 and March, 2015?

- Self-made protein feed containing pollen
- Self-made protein feed without real pollen
- Bee Pro
- MegaBee
- Global Patties
- Other commercial protein feeds

		Total Number of Respondents Providing Valid Responses	Total Number of Colonies Managed	Average Number of Colonies Managed		Average Colony Loss
				Mean	Standard Error	Mean(%) [Lower, Upper] CI
	Product Not Used	2,477	44,264	17.9	3.3	43.1 [41.6, 44.5]
	Product Used	2,206	323,851	146.8	35.1	40.6 [39.2, 42.1]
